Summary

Enthusiastic undergraduate student with hands-on experience building web and mobile applications across the stack. Comfortable working with C#, ASP.NET MVC, Entity Framework, SQL Server, JavaScript, Bootstrap, Flutter, and Dart. Able to create responsive user interfaces, develop RESTful APIs, connect applications to databases, and manage basic project workflows. Dedicated to writing clean, maintainable code and contributing effectively in team settings. Eager to learn new technologies and ready to apply my skills as an intern in a real-world software development environment.

Projects

EcommerceClothShop   Link to project

This project is a full-featured e-commerce web application developed using ASP.NET MVC and Entity Framework. It supports user authentication and authorization, a product catalog with category organization, a complete shopping cart and checkout flow, and order management with payment integration. Additionally, it includes an admin dashboard for managing users, products, and orders efficiently.

Project: Huoo   Link to project

Contributed to the development of "Huoo", a cross-platform music application built with Flutter and Dart. Collaborated on core app features including music playback, UI/UX design, and performance optimization. Gained experience in mobile application development, version control with Git, and teamwork within an open-source project environment.

Education

2022 - present	Bachelor of Software Engineering at **Ho Chi Minh City University of Foreign Languages – Information Technology** (GPA: 2.83/4.0)

Skills

Programming Languages	C#, Dart, JavaScript, HTML/CSS
Frameworks	ASP.NET MVC, Flutter, Bootstrap
Tools	Git, GitHub, Visual Studio, VS Code, SQL Server Management Studio
Databases	Microsoft SQL Server, SQLite
Soft Skills	Teamwork, Problem-solving, Self-learning, Time management
